

Teacher's Letter Requesting Assistance from School Psychologist for Observation

(Date)

Dear _____,
(School Psychologist)

My student, _____, is diagnosed with _____. I am now concerned that he/she is encountering some difficulty in class, whether related to his/her illness or not. I wonder if it might be possible for you to observe him/her in class and help me determine if there are times of day, situations, or activities that might be associated with what I am observing. Below is a description of the behavior of concern.

Description of student behavior:

Please feel free to contact me by phone or email.
